

NEW SECRETARY PLEADS SERVICE

New York, March 12.—In terms of the advertising manager, secretary of the Merchants' association of New York today of his appointment to the position of secretary of the department of agriculture, Mr. Meredith said his appointment and summarized the work of his department at the same time urging increased appropriations for carrying on the work.

"Are you going to keep this wonderful product—service—from the people? This wonderful product you are manufacturing," he asked his audience, whom he characterized as the owner of a business concern upon which he was making a report. It is not worthy the problem of the department of agriculture," he continued. "Because we are only your servants. You are manufacturing the product, and that product is service. I would like to double the number of customers. I want to increase the sales of this organization. In other words, I want to bring home to every man and woman in America this wonderful service."

He deplored a tendency to dilute "service," "gratuitous" and "soft" service. Secretary Meredith explained that only about one-third of the regular appropriation of \$2,000,000 is actually used in the interest of agriculture. The balance goes to the maintenance of weather service, the forest service, the administration of the food and drug act and other sub-divisions of the department.

The department was pictured as earning an income of more than \$10,000,000, the amount invested in agriculture. The agricultural and livestock product last year was \$21,000,000, he added. Equal in one year to our national debt at the present time—one-half of the wealth of France.

Clerk, Going to Exile Woman, Marries Her

Chicago, Ill., March 12.—Going to an apartment to visit a woman because of a rent dispute, and ending up by marrying her, is the story of the first wedding bell romance in the life of Homer D. Petty, a law clerk, and the fourth in the life of Mrs. Donna R. Petty, a Chicago housewife. The former was the owner of a fashionable beauty shop.

Petty, who studied law in the office of a Chicago attorney, was sent to the city of Mrs. D. R. D. S. L. P. three months ago, with an assignment to look after her house.

After seeing her he concluded that it would be best to turn her out in the cold, cruel world, and so informed his boss. What the boss said down to him by letter, he said that Mrs. D. R. D. S. L. P. gave up the flat, anyway, when she added the "P" to her name.

The bride's first husband was Earl Tucker, an actor; the second, Dr. Harold D. Tucker, a physician; and the third, Charles L. Tucker, a businessman. She was separated from two of them by legal proceedings and from one by an insane man with a carving knife.

At Pass Seed Co.'s 1250 Catalog now ready. Write or call for a copy. Adv.

Huge Ice Gorge Tears Loose In Allegheny River

Pittsburgh, Pa., March 12.—An ice gorge 20 feet high and stretching eight miles up river, broke loose at Freeport last night, started with a rush down the Allegheny, ran into the county bridge, moving it ten inches out of line, tore a number of flat boats, large barges and houseboats from their moorings, washing them down the river into the Ohio, and pounding most of them into splinters on the way.

Low to the upper Allegheny is level with the bridges and the tracks of the Allegheny Valley railroad and much damage is expected when it all begins moving down stream.

Heavy Demand For Yeast By Co-Eds Starts Investigation

Evansville, Ill., March 12.—Greco has recently started an investigation into the suspicious circumstances surrounding the unusual purchase of yeast by the co-eds of the Northwestern university. Enough yeast had been sold to supply the demand of a chain of restaurants. They couldn't understand it unless the girls were trying home law recipes.

The investigation proceeded learned that the co-eds had been reading beauty hints, which stated that yeast is a great producer and maintainer of complexion, form and general attractiveness. Those who were too plump matched the yeast cakes to reduce. Those who were too thin nibbled the cakes to grow plump. Those who were just right ate yeast to remain that way.

The investigation proceeded much relieved and laid in fresh supplies of yeast cakes.

Mince Pie For Prisoner Contained Saws And Files

Denver, Colo., March 12.—Police are still searching for a pretty young girl who left a mince pie with a jailer at the city jail here, to be given to her.

When the young lady called at the city jail who was informed that it was necessary for her to secure a permit from the office of the chief of police before seeing her. She asked a jailer to keep the pie until she could secure the permit. Becoming suspicious when she failed to return, the jailer opened the pie and discovered a fine assortment of hacksaws and files, evidently to be used by her in saving his way to freedom.

Says Japs Mutilate Young Girls Of Korea

Chicago, Ill., March 12.—Numerous letters and other cruelties are inflicted on Christian Koreans in that country by the Japanese, according to statements made to an address here by L. P. Ryan, a Korean student at Northwestern university. He declared that young girls and women have been mutilated beyond recognition through atrocities practiced on them by the Japanese, and that his classmates at a Korean school were thrown into prison and tortured to death.

5 CITIES GAIN IN POPULATION

Washington, D. C., March 12.—Population statistics for 1923 just announced by the census bureau included:

Mass., 2,525, an increase of 11,596, or 12.2 percent over 1920.

Chattanooga, Tenn., 21,595, an increase of 13,271, or 23.8 percent.

Louisville, Ky., 21,591, an increase of 10,625, or 43.2 percent.

St. Joseph, Mo., 17,724, an increase of 22, or 1 percent.

Chambersburg, Pa., 12,171, an increase of 1,171, or 11.8 percent.

Oxen Carry Doctor Through Drifts To Save Woman's Life

Poughkeepsie, N. Y., March 12.—When Dr. E. J. Vincent of Red Hook, was called to attend a very sick patient several miles in the country, he replied he could not come as the roads were heaped high with drifts.

"But you must come," said the woman's husband, Milton Donnelly. "My wife is dying."

The doctor leaving his car in his garage as useless, borrowed a cutter and drove to Chambersburg. Here he was told the horse would not be able to get the cutter through the drifts. The doctor then found an old farmer who owned a team of oxen. With these he made the trip through drifts four and five feet deep, which often had to be shoveled on route and saved the woman's life.

Manequins In Nighties Display Styles In London

London, Eng., March 12.—Manequins in repose on rich divans, garbed in sleeping attire, are being employed by fashionable stores to top off their "show bedrooms" and women's wear departments.

Thus women customers can view the new models worn by well-proportioned girls, and judge the effect presented when asleep or just awakening.

In order to prevent traffic jams private sleeping rooms are employed for the nightgown innovation.

Newly Rich, Have No Social Aspirations

Springfield, Mass., March 12.—Newly acquired riches aren't going to make any difference in the life of Mr. and Mrs. William D. Stillwell, the former having been left nearly \$200,000 by his cousin, William P. Cowan, former president of the Standard Oil company of Indiana.

"We have no social aspirations," says Mrs. Stillwell. "But may go as far as buying the old auto and get a new one."

Shot, Roll Of Bills In Pocket Saves His Life

Huntington, W. Va., March 12.—A roll of money which he carried in his vest pocket saved the life of Walter Siler, wealthy Huntington lumberman, when a highwayman shot at him. The bullet, which would have punctured his heart, imbedded itself in the bills.

Switzerland does not provide any home for its president.

Globe Store News
